# Changes to your Washington Gas bill and new information to help you manage your energy decisions...

## Dear Valued Customer,

Washington Gas has **redesigned your bill** and **provided new information** to help you understand the bill and make informed energy decisions. Some changes are a result of state regulations to encourage a competitive energy market.

All Washington Gas customers have the opportunity to buy natural gas from retail energy suppliers or to continue buying from Washington Gas, the regulated utility. The new bill format and additional information can be helpful as you consider those kinds of decisions and look for ways to manage energy costs.

Please visit the *Energy Information* and *Customer Choice* sections of our Web site, or call us for additional information about energy efficiency, retail energy suppliers, historical gas costs, average bills and other information to help you compare and calculate savings.

See inside for an explanation of new bill features.
