Washington
Gas

www.washingtongas.com

Customer Choice is a voluntary program offered to all Washington Gas customers in the District of Columbia that gives you the option to buy natural gas from a licensed energy supplier of your choice or from Washington Gas.

Energy supply companies compete in the retail market for your business and these companies may have greater flexibility in how and what they charge. Some companies may offer fixed price contracts or other pricing alternatives that may save you money. By regulation, Washington Gas must charge customers what it pays for the gas they use, and prices can fluctuate monthly.

You choose which company sells you natural gas. Washington Gas will deliver it to you safely and reliably, just as it has always done.

compare. calculate.

WHAT OTHER COMPANIES SUPPLY NATURAL GAS?

These supply companies sell to residential customers, and the list can change periodically.

You'll find the most current lists for residential and commercial customers at www.washingtongas.com.
